1000 PEACE CRANES
For World Peace Day

This year, the Year Six class looked at different peace symbols and tried to define what peace meant to each of them personally. One of the most interesting symbols they learnt about was the Origami Peace Crane. The true story behind this symbol is inspiring and the Year Six Class challenged themselves to make 1000 peace cranes before World Peace Day was celebrated on the 21st of September. They achieved their goal—just! They made over 1000 peace cranes with the help of many friends and family.
