Each Thursday afternoon, children from Years One to Three have participated in the Active After School Community programs.

During Term One the children learnt some circus skills in the Hall. They spun plates, juggled, tried tight-rope walking, walked on stilts and did tricks on the trampoline.

During Term Two the children participated in some team building games. They worked together to complete races and obstacle courses as well as playing team ball games.

During Term Four, it was time to get wet! The children continued playing team games but this time the balls were replaced with dripping wet sponges!
