

## Year Three Communication and Homework for Week Seven, Term Three 2017

Hi Parents/Caregivers. Thanks to the P & F for their continuous support to our school and community. They have worked so hard to make our special events happen. This year's book week was another success. It was great to see parents come in with their children to purchase books from the collection in the library. In week 8, we will be performing at the 'Pilbara Musical Festival' at the Wanangkura Stadium, South Hedland. I will be sending out a letter to explain details. For homework this week, I would like students to complete all activities in the boxes. We have been learning a range of strategies in class for Literacy and Numeracy. I will be able to assist any students who need help. Keep working hard Year Three. HAVE A FANTASTIC WEEK EVERYONE.

Kind Regards

Lyn Poharama and Team

**Literacy - 'Punctuating Sentences/Paragraphs'**

HOMEWORK: Punctuate paragraphs using full stops, capital letters, exclamation marks and question marks

(1) one day, a magical pixie called fairydust skipped happily through the enchanted forest she was wondering what sort of magic spells she could cast over her friends in the village of fairyville would it be a kind spell, or would it be a wicked spell stop if you cast too many spells, you may run out of them

(2) hamish the hedgehog scuttled under the enormous pile of leaves, which were at the foot of a horse chestnut tree in the woods what was that wow it was a conker, falling down from the branches above the pile of leaves where did that come from what a big conker hamish had never seen such a large conker before he ran back under the mound of leaves, then went to sleep

**Numeracy - Problem Solving**

1) Nathan bought 43 Harry Potter cards at the shop. Outside, he met Callum, who had 83 cards. Along came Kieran who had none. The 3 friends decided to share all the cards. How many did they get each?

2) Katie had thirteen cakes and four plates to put them on. She wanted the same number of cakes on each plate. Could she do that? Explain your answer.

3) Jill saves \$1 every week. She wants to buy a new game costing \$30. How many weeks is it before she can afford to buy the game?
