

Kindy and Year 5 Buddies

During 2016, the Year 5 and Kindergarten Classes have participated in a Buddy Class program for 45 minutes every fortnight. The interaction between the students has been impressive to say the least. As the Year 5's are moving into Leadership roles next year, they have 'stepped up' and proven that they are ready to take on the responsibility that is associated with being leaders of our school. Conversely, the Kindy students have relished the association with the older pupils and each time they come together, the smiles on their faces proves that the program is a great success. A big thankyou is extended to the staff and students for their willingness and positive attitude throughout.
