

## Speech Pathology at St Cecilia's Catholic Primary School

Dear Parents and Caregivers,

My name is Genevieve and I work for Smart Talk Speech Pathology, a Perth-based company that has recently branched out to Port Hedland. We are very excited to be working with St Cecilia's Catholic Primary School.

School-based therapy is fast becoming a preferred model of service delivery by therapists, school staff and parents. It minimises absences from school, promotes a direct relationship with classroom teachers and is convenient for time poor families.

I will be on-site at St Cecilia's every Monday. If you feel that your child would benefit from therapy, please speak to your child's teacher or contact our office directly on 6150 8339. Parents are encouraged to attend sessions but understandably this is not always possible. If you are unable to attend, I will send an email summary of what we covered in our session each week. I also offer a home visiting service if you would prefer that your child be seen at home.

Below is an outline of our costs. There are also a number of funding options available, and most Private Health Insurance companies offer a rebate for Speech Pathology sessions. Assessment and therapy sessions are paid for by parents directly to Smart Talk Speech Pathology. Our fee structure is as follows:

- 30 Minute session - \$80
- 45 Minute session - \$110
- 60 Minute session - \$140
- Written Report - \$150
- Summary Report – Free for school partnerships

On the following page you will find an outline of what we do. If you have any queries please do not hesitate to contact Smart Talk on 6150 8339.

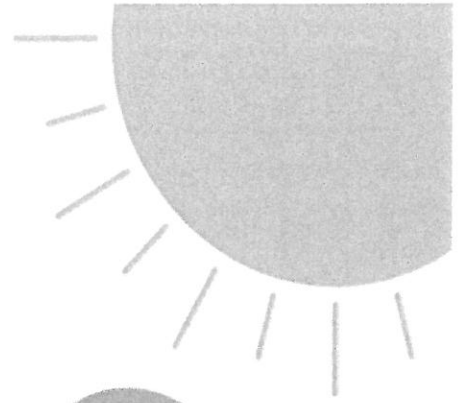

Kind regards,

Genevieve Wilmot
