

YEAR 2 RUNS RINGS

This year was an action packed journey for Year 2. A significant chunk of our time in Port Hedland was actually spent...far away from Port Hedland! We jumped aboard "Olympic Travel Airlines" to visit the six continents outside Australia and learned so many things about our planet and its people. We also travelled around our own island country, which is also a continent! Australia is a fabulous place and we found out more about the many things that surround our shores. **Please enjoy our snapshot of 2016!**
