

Information note for families

Introducing the 'My mixtures' project

This term our class is exploring everyday mixtures and their uses. As part of the science unit *All mixed up*, students will investigate simple mixtures in their home.

Examples of simple mixtures in the home might include breakfast cereals, seed mix and detergent mixed with water.

Students are asked to complete their resource sheet 'My mixtures' and are also encouraged to take photos, draw pictures or bring some of the items to school for a display.

Reinforce that some mixtures might be poisonous and they are not to taste, smell or eat anything unless they are given adult permission.

Students will be asked to share their observations with their classmates on:

Class teacher

My mixtures

Name: _____ Date: _____

Find some simple mixtures around your home. Write or draw your answers.

What is the mixture called?	What is in the mixture?	What is the mixture for?
cup of black tea 	tea-leaves water sugar	to drink
